EXPERIENCE

Scottish Water

Digital Intern (Enterprise Architecture)

Jun 2022- Aug 2022

- Developed a framework for Vendor applications lifecycle gap management, which helped to totally eradicate business disruptions as well as save cost.
- Worked with low code tools to produce enterprise level software for automating internal process reducing processing time by over 50%.

Tycom Ltd

Software Developer (Freelance)

May 2022- Jun 2022

- Built an application for monitoring and analyzing deleted jobs that were due to be moved to immutable storage to prevent permanent data loss.
- Maintained legacy software and continuously refactored some of the code base to reflect the current software development best practices.

Access Bank PLC

Senior Finance Analyst

Sep 2017 - Nov 2021

- Led a team that contributed more than 30% to the organization's revenue in 2021 (the highest single contribution by a team).
- Implemented over 200m USD in Forward contract agreements with importers in Nigeria to ease FX pressures in 2021 (Awarded by EMEA as the best FX trading team in Africa, 2021).
